New York, le 10 juin 2026

Objet : Transmission d'offres d'emploi au sein de l'Organisation Mondiale de la Santé

Madame le Ministre d'Etat,

J'ai l'honneur de vous faire parvenir, ci-joint, les offres d'emploi récemment transmises par l'Organisation des Nations Unies, relatives aux postes suivants : Directeur de la prévention et de la promotion de la santé, de niveau D-1, basé à Copenhague (Danemark) ; Gestionnaire de données, de niveau P-3, basé à Mogadiscio (Somalie) ; et Agent technique, de niveau P-4, basé au Caire (Egypte), au sein de l'Organisation mondiale de la Santé.

Ces postes s'inscrivent dans une démarche visant à soutenir les Etats Membres dans la promotion de talents qualifiés, tout en favorisant une représentation géographique équitable au sein du système des Nations Unies.

A cet égard, la Mission permanente voudrait suggérer une large diffusion de ces offres auprès des structures nationales compétentes, afin de renforcer la présence ivoirienne au sein des Nations Unies.

Le descriptif détaillé des postes concernés, ainsi que les informations relatives aux procédures de candidature, sont accessibles via les liens électroniques annexés à la présente note :

- https://careers.who.int/careersection/ex/jobdetail.ft?job=2602111&tz=GMT-04%3A00&tzname=America%02FNew_York
- https://careers.who.int/careersection/ex/jobdetail.ft?job=2601954&tz=GMT-04%3A00&tzname=America%02FNew_York
- https://careers.who.int/careersection/ex/jobdetail.ft?job=2602232&tz=GMT-04%3A00&tzname=America%02FNew_York

Les candidatures devront être soumises en ligne, au plus tard les 16, 22 et 28 juin 2026.

Je vous en souhaite bonne réception et vous prie d'agréer, Madame le Ministre d'Etat, l'assurance de ma haute considération.

Director, Prevention and Health Promotion - (2602111)

Grade: D1

Contractual Arrangement: Fixed-term appointment

Contract Duration (Years, Months, Days): 1 year (Further extension subject to availability of funds and satisfactory performance)

Posting Date Jun 2, 2026, 8:42:40 AM

Closing Date Jun 16, 2026, 5:59:00 PM

Primary Location Denmark-Copenhagen

Organization EU/PHP Division of Prevention and Health Promotion

Schedule Full-time

OBJECTIVES OF THE PROGRAMME

The Division of Prevention and Health Promotion supports countries in ensuring that people thrive in healthy environments, while avoiding premature disease and death through integrated prevention across the spectrum of health and disease, health promotion, innovation, behavioural and cultural insights, trust building and climate action.

DESCRIPTION OF DUTIES

Summary of Assigned Duties:

1. Ensures effective direction, management, high quality programme delivery and accountability of the division in delivering its objectives through managing and inspiring a diverse workforce and peer communities to optimize the division's human and financial resources, deliverables and mandates.
2. Leads the division in developing a strong evidence base of quality health intelligence and leads the division in developing evidence-based policies and strategies for dissemination and implementation in Regional and Country Office programmes.
3. Provides highest level technical advice and expertise to country offices and development partners on key health systems issues and provides options to address these challenges as well as mobilizes resources to support their implementation to position the division and Organization as a leader in this area of work.
4. Leads the development of effective mechanisms to enable and support countries to design, establish and implement policies and strategies that ensure equitable and universal access to comprehensive prevention and public health that responds to the population's needs.
5. Manages, monitors and evaluates the reporting of the division's work against key performance indicators. Ensures that regional reporting requirements are met and mechanisms in place to optimize performance of the divisional deliverables.
6. Serves as the scientific/technical reference among UN Agencies and other key stakeholders in the respective area.
7. Harmonizes the work of the division's technical units at country and regional levels as well as with national authorities on follow-up actions on major global conferences and conventions related to the division's programme areas.
8. Builds new or strengthens existing partnerships with External Partners, Member States, UN Agencies, donors, research institutions and other stakeholders to position the technical area of work and implementation into national and/or regional policies. Coordinates with partner organizations, including non-UN approaches. Contributes to effective and efficient three-level coordination in the areas of responsibility, ensuring that countries benefit from the best possible support and advice from WHO Headquarters, Regional Office and Country Office resources, including the UN system at country level.
9. Drives and guides division-wide resource mobilization activities within the Region, working closely with WHO Country Offices and the EURO resource mobilization team.
10. Provides highest level technical advice and expertise to EURO Management on the overall implementation and coordination of EURO/WHO mandate. This includes serving as a member of EURO's Executive Council and actively supporting the Regional Director, the Director, Programme Management and other EURO technical directors. This also includes serving as part of the technical secretariat for WHO governing body meetings (WHA, EB, RC and the Standing Committee of the Regional Committee (SCRC)) and other senior management and advisory meetings.
11. Represents the division in global fora to position its area of work in the global health community. Promotes WHO leadership in the division's programmes, including through relevant research and use of WHO norms and standards and social science integration for public health, advising Member States in the region on innovative actions on priority issues.
12. Performs any other relevant duties deriving from the above-mentioned responsibilities.

REQUIRED QUALIFICATIONS

Education

Essential: An advanced university degree in public health, health sciences, social sciences, or similar field relevant to health promotion and prevention.

Desirable: A PhD in one of the above-mentioned fields.

Experience

Essential: A minimum of 15 years of international and national relevant, progressively responsible professional experience in the management of health programme delivery and public health including developing and establishing policies and strategies. At least 5 years of experience of providing senior level advice and guidance to senior management/decision makers, including in middle and high-income countries. At least 5 years of management experience in recognized senior leadership positions with direct responsibility for managing both human resources and finance operations.

Desirable: Experience in working with senior level policy makers and international civil society organizations in a health-related field. Field experience in country health related or public health programmes in developing countries.

Skills

1. Thorough knowledge of WHO's values, goals, policies, structure and functions.
2. Demonstrated ability to conduct needs assessment, policy development, programme implementation and evaluation.
3. Demonstrated ability to utilize health data sources and research evidence to monitor trends and plan appropriate policy and programmatic responses.
4. Excellent skills and ability in managing diverse and multicultural teams and financial resources.
5. Demonstrated ability to mobilize resources.
6. Ability to engage, build consensus and communicate effectively and diplomatically with Member States, partners, multiple stakeholders and the media.
7. Demonstrated leadership skills in the planning and coordination of multidisciplinary public health programmes.
8. Emotional awareness: ability to identify and harness one's emotions and apply them to tasks and the ability to manage emotions which includes both regulating one's own emotions when necessary and helping others do the same.

WHO Competencies

Teamwork
Respecting and promoting individual and cultural differences

Communication
Ensuring the effective use of resources

Driving the Organization's Position in Health Leadership
Creating an empowering and motivating environment

Use of Language Skills
Essential: Expert knowledge of English.
Desirable: Intermediate knowledge of French, Intermediate knowledge of Russian.

REMUNERATION

WHO salaries for staff in the Professional category are calculated in US dollars. The remuneration for the above position comprises an annual base salary starting at USD 117 953 (subject to mandatory deductions for pension contributions and health insurance, as applicable), a variable post adjustment, which reflects the cost of living in a particular duty station, and currently amounts to USD 7569 per month for the duty station indicated above. Other benefits include 30 days of annual leave, allowances for dependent family members, home leave, and an education grant for dependent children.

ADDITIONAL INFORMATION

- This vacancy notice may be used to fill other similar positions at the same grade level.
- Only candidates under serious consideration will be contacted.
- A written test and/or an asynchronous video assessment may be used as a form of screening.
- In the event that your candidature is retained for an interview, you will be required to provide, in advance, a scanned copy of the degree(s)/diploma(s)/certificate(s) required for this position. WHO only considers higher educational qualifications obtained from an institution accredited/recognized in the World Higher Education Database (WHEDB), a list updated by the International Association of Universities (IAU)/United Nations Educational, Scientific and Cultural Organization (UNESCO). The list can be accessed through the link: <http://www.whebd.net/>. Some professional certificates may not appear in the WHEDB and will require individual review.
- According to article 101, paragraph 3, of the Charter of the United Nations, the paramount consideration in the employment of the staff is the necessity of securing the highest standards of efficiency, competence, and integrity. Due regard will be paid to the importance of recruiting the staff on as wide a geographical basis as possible.
- Any appointment/extension of appointment is subject to WHO Staff Regulations, Staff Rules and Manual.
- The Director-General retains the discretion to not make an appointment to this vacancy, to make an appointment at a lower grade, or to make an appointment with a modified job description, including shortening the duration of the appointment.
- Staff members in other duty stations are encouraged to apply.

6/10/26, 12:18 PM

- WHO is committed to creating a diverse and inclusive environment of mutual respect. WHO recruits and employs staff regardless of disability status, sex, gender identity, sexual orientation, language, race, marital status, religious, cultural, ethnic and socio-economic backgrounds, or any other personal characteristics.
- WHO is committed to achieving gender parity and geographical diversity in its staff. Women, persons with disabilities, and nationals of underrepresented Member States (<https://www.who.int/careers/diversity-and-inclusion>) are strongly encouraged to apply.
- Persons with disabilities may request reasonable accommodations (modifications or adjustments to the application or recruitment process) to support their participation in the application and recruitment process. Please send an email to reasonablaaccommodation@who.int with your full name, the vacancy number you are applying for, and specific details of the accommodation needed in your request.
- An impeccable record for integrity and professional standards is essential. WHO prides itself on a workforce that adheres to the highest ethical and professional standards and that is committed to put the WHO Values Charter into practice.
- WHO has zero tolerance towards sexual exploitation and abuse (SEA), sexual harassment and other types of abusive conduct (i.e., discrimination, abuse of authority and harassment). All members of the WHO workforce have a role to play in promoting a safe and respectful workplace and should report to WHO any actual or suspected cases of SEA, sexual harassment and other types of abusive conduct. To ensure that individuals with a substantiated history of SEA, sexual harassment or other types of abusive conduct are not hired by the Organization, WHO will conduct a background verification of final candidates.
- Mobility is a condition of international professional employment with WHO and an underlying premise of the international civil service. Candidates appointed to a fixed-term position in the International Professional category (Grades P-1-D2) are eligible for Geographical Mobility and may be assigned to any activity or duty station of the Organization throughout the world.
- WHO also offers wide range of benefits to staff, including parental leave and attractive flexible work arrangements to help promote a healthy work-life balance and to allow all staff members to express and develop their talents fully.
- The statutory retirement age for staff appointments is 65 years. For external applicants, only those who are expected to complete the term of appointment will normally be considered.
- Please note that WHO's contracts are conditional on members of the workforce confirming that they are vaccinated as required by WHO before undertaking a WHO assignment, except where a medical condition does not allow such vaccination, as certified by the WHO Staff Health and Wellbeing Services (SHW). The successful candidate will be asked to provide relevant evidence related to this condition. A copy of the updated vaccination card must be shared with WHO medical services in the medical clearance process. Please note that certain countries require proof of specific vaccinations for entry or exit. For example, official proof of yellow fever vaccination is required to enter many countries. Country-specific vaccine recommendations can be found on the WHO international travel and Staff Health and Wellbeing website. For vaccination-related queries please directly contact SHW directly at shws@who.int.
- WHO has a smoke-free environment and does not recruit smokers or users of any form of tobacco.
- For information on WHO's operations please visit: <http://www.who.int>.

Director, Prevention and Health Promotion

OBJECTIVES OF THE PROGRAMME

The Department of Polio Eradication and Vaccine-Preventable Diseases (PVD) leads WHO's efforts in the Eastern Mediterranean Region (EMR) towards equitable access to immunization services across the life course. A core priority is achieving and sustaining the eradication of all wild and vaccine-derived polioviruses, in line with World Health Assembly and Regional Committee mandates. The Department also supports countries to achieve regional and global systems and goals, including the elimination of measles and rubella, maternal and neonatal tetanus, and bacterial meningitis, while strengthening surveillance and outbreak preparedness, with a focus on reaching zero-dose and under-immunized children, reducing immunization programmes, the Department promotes high and equitable routine immunization coverage, with a focus on reaching zero-dose and under-immunized children, reducing immunization programmes, and preventing VPD outbreaks. It also supports the introduction and scale-up of new and unutilized vaccines and their long-term health consequences. The Department provides strategic leadership and technical coordination to help countries achieve IA2030 targets, accelerate progress towards a polio-free region, and sustain the capacities and gains of eradication in the post-certification era.

For assigned geographic areas:- Provide technical guidance for coordination and planning of Supplementary Immunization Activities (SIA) planning in endemic and funding and human resources as well as SIA activities to reduce vulnerability in countries at high risk of outbreaks. Plan and prioritize allocation of vaccine supplies, Provide effective response to any importation or through understanding of risks and polio virus situation and in close coordination with HQ, countries and partners. Planning, implementation, and coordination with GPEI partners for response to outbreaks or outbreak of circulating vaccine derived polio virus in previously polio-free areas through six-month assessments of status of outbreaks, effectiveness of response and the likelihood of continuing transmission. Monitor progress and identify risks in countries or sub-regions assigned. Identify constraints to polio eradication in priority countries and areas and support the development of plans of action to overcome those constraints. Promote activities to enhance the impact of these plans, and training/orientation of national and sub-national staff. Develop guidelines and monitor in-depth analysis of the progress of the programme in implementing these strategies. Identify training needs, evaluate and document outbreak response activities to problems, and all lessons learned are effectively incorporated into current best practices. Develop and manage approaches in assigned countries that can achieve polio eradication while contributing to strengthening routine immunization systems. Assist in identification and response to other VPD outbreaks with focus on Measles and Diphtheria.

Education	Experience	Skills
Essential: University degree in medicine, sciences, engineering, international development or a related discipline and an advance degree, at least at Masters level, in public health, epidemiology, related science or health discipline. Desirable:	Essential: At least seven years of relevant experience combined at the national and international levels in public health including developing country settings, out of which at least four years in disease eradication, immunization, or infectious disease control. Desirable: Significant experience with polio eradication programmes and in the management of large-scale public health programmes involving immunization. Working experience with international organizations and/or non-governmental organizations.	

Technical Officer

- Good knowledge of public health and epidemiology with broad practical knowledge of public health, infectious disease surveillance and control, vaccine science, immunization and disease eradication policies and strategies and their application in developing countries. - Strong ability and experience with analysis of surveillance, immunization monitoring and epidemiologic data. - Strong technical writing and analytical skills. - Demonstrated ability to work effectively with governments, and in field conditions.

WHO Competencies

- Teamwork
- Respecting and promoting individual and cultural differences
- Communication
- Building and promoting partnerships across the organization and beyond
- Producing results

Use of Language Skills

- Essential: Expert knowledge of English.
- Desirable: Intermediate knowledge of French, Intermediate knowledge of Arabic.
